Message from the KYSSAR President

President Doug Collins

Compatriots: As I mentioned in an earlier newsletter, I am asking all Chapters to start using the Americanism Scoresheet to record their activities. The score sheet can be accessed via the following link: <http://www.sar.org/node/283>. As a Chapter President, I have found that this is a great way to keep track of the activities in which my Chapter participated. I have requested that a summary of the score sheets be included, starting with this newsletter. The idea is to encourage each Chapter to get involved and highlight their accomplishments.

As we are in the midst of summer, the opportunities for SAR activities are ever present. There is already a variety of items on tap throughout the State. Grave markings seem to be the most popular. If you have not attended one in the past, I encourage you come out to one and participate. Believe it or not, schools will be in session in less than two months. Now is the time to prepare programs and activities to service the youth of Kentucky. While we do a terrific job, there are so many opportunities left on the table.

Don't pass up any opportunity to sponsor and present a Flag Certificate to an individual, a company or a government agency that flies the United States flag. Certificates are available through the SAR Store and the cost is nominal, but the Goodwill is tremendous. With the [July 4th](#) Holiday just around the corner, this would be a great time to present a certificate.

The 2014 Congress in Greenville, South Carolina is less than one month away. I look forward to attending and representing the Kentucky Society at this annual event. We will update you at the State Meeting at Blue Licks Battlefield.

Our next State Meeting will be in conjunction with the Blue Licks Battlefield Memorial Service [on August 16](#). Please make plans to attend, we are looking for a good turnout to this combined event.. There are more details in this newsletter.

Keep up the good work.

Faternally,

Doug

As KYSSAR President Doug Collins mentioned in his remarks on the front page, keeping track of your chapter activities via the Americanism/President General's report is a great way to keep track of the your chapter activities. It is also a way to see what your chapter is not doing.

These reports show totals from a large, a medium and a small chapter. You can see that we do different things and that is okay. The question is can we do some things that we are not doing now?

The small chapter has been involved in several community activities and some Patriot Grave marking services. They receive publicity from their local media which has helped them attract new members. Most of their members have uniforms and a good percentage of their members attend their activities. This chapter has also done a good job in youth activities--especially in the poster contest and making presentations at schools.

The medium-size chapter is very active with community events and Patriot Grave markings and several of their members attend these services. Presentations are made at several schools but they could do better in the youth contests--especially in the poster contest.

The larger chapter does a good job in most of the youth activities and in community activities. They could improve by having more members involved in their activities and other activities--like grave markings out in the state.

Starting with the next newsletter, Americanism and President General totals will be listed by Chapter. If you need help in filling out your report, contact the Editor at cescott@twc.com.

MD2KY Reunion

Maryland to Kentucky and Beyond Reunion

We'll have an SAR booth (table) at the upcoming "Maryland to KY and Beyond Reunion" June 27-28 at St. Catharine's College in Springfield. This biennial reunion began in 1990 to preserve the rich heritage of our Maryland ancestors and their descendants who first emigrated to the Kentucky wilderness frontier in 1785. This tradition of sharing genealogical information, research and kinship has rotated every other year since it was first held at Nazareth, KY, among sites in Maryland, Kentucky and Missouri. We expect nearly 500 people to attend the three-day event.

Volunteers are needed to work the SAR table.

June 27-28 (9 am to 4 pm)

You would be there to pass out SAR information and/or talk to individuals who are interested in learning more about the SAR.

Captain Charles Gatliff Chapter Knox Central High School

A few years back, Don Root--a member of the Captain Charles Gatliff Chapter took an idea to the JROTC department of Knox Central High School in Barbourville, KY. His idea was to create what is now a reality--Revolution Hall. On the wall of the hall there are over 40 Revolutionary War era pictures that students pass every day. In the main hallway, large pictures of General George Washington and General Henry Knox are hung along with our country's major historical documents.

Don was also instrumental in obtaining a Revolutionary War history course that is offered to JROTC Cadets. As if that wasn't enough, Don started a "Blessings in a backpack" program at an elementary school where food is given to needy children.

Compatriot Root was nominated for the Colonel Stewart Boone McCarty Award which he won. With the cash award he received he commissioned a sculptor to create a bust of General George Washington. The bust, which was dedicated to his recently departed friend and compatriot Arthur Jeffries, now stands in the lobby of the Knox Central High School.

At a recent chapter picnic, members of the Captain William Arnold Chapter introduced and performed a "Call to Duty" ceremony for some of the new chapter flags. Several of the members made a donation to purchase the flags and then in the ceremony the member gave a brief talk about the flag he sponsored. The event was well attended.

WIDDER'SLANDING

A historic novel about frontier life in Kentucky in the early 1800s

By Eddie Price

A young man loses his job and is forced to relocate. No one is hiring in such bleak economic times. America finds itself threatened by a world superpower firmly in control of global trade. Money is scarce, businesses fail, and the Bank of the United States closes its doors. The country will soon be embroiled in another war. This is not present day the year is 1811.

Craig Ridgeway, a 21-year old gunsmith from Pennsylvania, rides a flatboat down the Ohio River and settles in Breckinridge County, Kentucky to try his hand at farming. Through an accidental association with a notorious widow (the past proprietor of a liquor vault and prostitution den), he inherits a patch of rich bottomland, embraces a nearby family, and falls in love with the abandoned wife of a violent outlaw. Overcoming inexperience and hardships, Craig builds a promising new life, learning how to raise corn, tobacco and hemp. Inspired by the Widder's recipe, he and his wife Mary manufacture bourbon whiskey, which he markets profitably in New Orleans. A new steamboat embarks on its first journey down the Ohio and Mississippi Rivers, ushering in a new economic era.

But good fortune comes at a high price. The looming war with Great Britain disrupts the economy and soon overshadows Craig's life. He must make choices that affect others in times of conflict. Will he risk everything by fighting on the northern frontier? Will he use his special talents as a gunsmith and marksman to help his nation? After twice refusing to fight on the northern frontier, he has one last chance to join his fellow Kentuckians in the heroic defense of New Orleans. The epic battle on the sugarcane plantations below the city provides redemption for the young American nation and for Craig, as he returns home to continue his adventure in life with Mary.

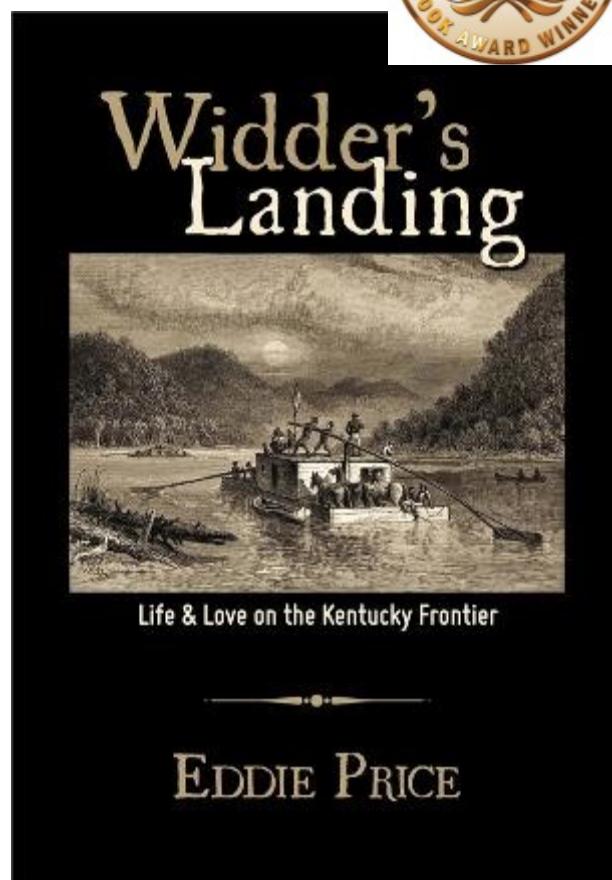

Widder's Landing is a story of life, love and survival set against the rugged Kentucky frontier.

Eddie Price, the author of *Widder's Landing*, is a lifelong native of Kentucky. A graduate of Kentucky Wesleyan College (BA) and Western Kentucky University (MA and Rank I), Eddie taught history for 36 years (31 at Hancock County High School). He also taught part-time classes for 21 years at Owensboro Community & Technical College. In that time, both he and his students received several awards.

In addition to being an award winning author, Eddie Price is a member of the Kentucky Humanities Council Speaker's Bureau.

If you need a good speaker for a chapter event contact Eddie Price.

(Book and contact information on right side of this page)

"Eddie Price explores the vital role Kentucky played during our Second War for Independence with Great Britain. Widder's Landing is a well-researched historical overview of Kentucky's role in the War of 1812, a penetrating look into the lives of Kentuckians during this tumultuous time in the history of Kentucky and our nation."
